

Herbruck's Poultry Ranch

6425 W Grand River Ave

Saranac, MI 48881

616.642.9421

Date 4/4/2024

To whom it may concern,

All forms of the poultry manure produced at Herbruck's, from dried poultry fluff to pelleted products, do not contain any synthetic materials. We do not use any arsenic compounds in the feed or litter for our birds. We have manure drying systems in the coops, with the manure being released 4 days after it is produced with a moisture level of less than 15%. This level not only reduces odors but keeps flies from developing as well.

Sincerely,

Jered Birkbeck

Director of Feed & Fertilizer Operations  
Herbruck's Poultry Ranch
