

Herbruck's

We Serve the Soil!

All-Purpose
Organic Fertilizer

WE'RE BACK TO MAKING FERTILIZER AGAIN!

Herbruck's is now fully populated with happy, healthy chickens on all our Michigan farms. It's taken us a few months to build enough inventory to supply the ag market, but we are now looking to reconnect our fertilizer to your land and crop needs. We have plenty of pellets and crumbles to provide your soil with a natural release of N-P-K your crops will thrive on.

Herbruck's is Michigan's largest poultry fertilizer supplier, and we have been making this natural poultry fertilizer for decades. Nature's Supreme 4-3-2 Pellets, and Nature's Supreme Ag Crumble is ready for shipping and spreading for fall field applications.

As you prepare your field and fertilizer plans, think of Nature's Supreme. Let's get back together and discuss our natural fertilizer and the value it can deliver to your farm.
